

Vocational Training Services Case Study

Jill Kent Health and Social Care

Jill lives in Leigh-on-Sea, Essex and is currently undertaking VTS's City and Guilds Level 2 Certificate in Preparing to Work in Adult Social Care.

This qualification is designed to provide an ideal taster for learners who may be new to the sector or new to the world of work. Successful completion provides an opportunity for progression into employment in the care sector, for example working in a residential care or nursing home.

After helping her family look after a very close family member who was ill, Jill has decided to change her career aspirations and take up care work as a career.

She volunteers for the Sports Disability Academy in Southend, helping with hockey, basketball, skittles and table cricket, and has formed excellent professional relationships with the people she is working with, which has helped form her ambition to work in care.

Jill says: **"I was originally quite daunted at the prospect of joining a care training group as I have not studied since leaving school but VTS have made this so easy and enjoyable. I love being on this programme and it has made me realise that I have made the right decision in training to work in care. Suzanne is a great tutor and I really am learning so much".**

Jill's Tutor, Suzanne, said:

"Jill is motivated, enthusiastic and keen to learn. She makes valid contributions to lessons and always wants to gain as much knowledge as she can. She is friendly and interacts well with others on the course. Jill is a pleasure to teach and has genuinely benefitted from the course, and this is reflected in her written work."
