

## Vocational Training Services Case Study

### Leticia Stanbury Health and Social Care

Leticia lives in Southend, Essex and is currently undertaking VTS's City and Guilds Level 2 Certificate in Preparing to Work in Adult Social Care.

This qualification is designed to provide an ideal taster for learners who may be new to the sector or new to the world of work. Successful completion provides an opportunity for progression into employment in the care sector, for example working in a residential care or nursing home.

Leticia (20) originally studied travel and tourism and achieved excellent qualifications but after caring for a close family member at home who was ill, has decided that her true future lies in the care profession..

Leticia is making good progress towards this, and is determined to make the most from this programme. She says the class is very professional yet friendly, and is benefitting from her tutor's wealth of knowledge from the care industry.

**Leticia says "I am so pleased that I was referred to VTS. We all help each other on the course and I'm sure I won't want to leave when the time comes—but I know the course is aiming to help me achieve my ambition of working in Care and I can't wait to achieve my qualification! I have learned so much since I joined and my tutor, Suzanne, has a way of explaining things so well. I want to work with people with dementia or learning difficulties, and this course will really help."**

**Leticia's Tutor, Suzanne, said:**

"Leticia is very enthusiastic, and genuinely keen to work in care. She interacts well with the other people in the group and makes contributions during the sessions. Leticia asks many questions as she wants to gain as much knowledge as possible, and would like to continue learning in the future while gaining practical experience. Leticia is a pleasure to teach."
