

APPRENTICE WEDNESDAY

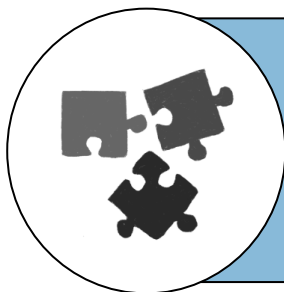

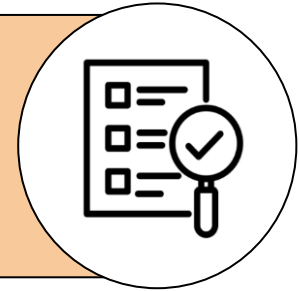

Who Am I?

My name is Megan, and I am studying the Early Years Educator Level 3 apprenticeship at Nannas Day Nurseries with Vocational Training Services.

Before My Apprenticeship

I started as a Trainee Room Leader at my workplace before deciding that I wanted to develop my industry knowledge and skills by completing the EYE3 apprenticeship course.

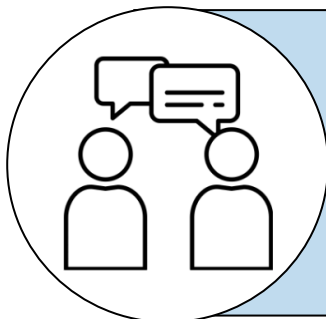

The Benefits of Apprenticeships

My apprenticeship and tutor have helped me to gain knowledge of why we do things in the workplace. This helps to support the children as I understand how they develop.

My Future Career Goals

The EYE3 apprenticeship has definitely helped me to climb the ladder as I have taken on more responsibilities. Upon finishing the apprenticeship I would like to undertake further training.

Advice For Others

Doing an apprenticeship will help you perform your role better and apply new knowledge and skills quicker. I would recommend VTS because my tutor meets all my needs and will work in a way that suits you best.
