

STORAGE AND RETENTION OF DOCUMENTS POLICY

Purpose

The purpose of this policy is to set out the approach of Vocational Training Services Care Sector Ltd (VTS) with regard to the storage and retention of various information, documentation, contracts and records it has collected and will continue to collect in the course of its business operations.

Scope

All business records, operational, contractual and financial. This policy deals with storage and retention for contractual and legal compliance as well as good business practice. For our approach to collection and storage of individuals' personal information, please see our Privacy & Data Protection Policy.

Overview

In order to carry out its primary business function as a training provider of further education & skills, VTS collects, processes and stores a variety of related documents & information including:

- Learner information & records of learning
- Employer information, operating addresses & personnel contacts
- Staff & HR information including payroll
- Contractual information from various organisations
- Financial information – suppliers, banking, HMRC etc
- Historical company information
- Correspondence by email or letter from learners, employers & other stakeholders
- Records of telephone conversations from learners, employers & other stakeholders

Storage of Records, Files & Information

Since 2020, VTS has operated in a virtually paperless environment. All operational documentation is produced, completed and stored electronically. Historical paper archived learner files have been scanned and converted to electronic storage. Our systems are robust and adhere to Cyber Essentials protocols.

Since 2021, all financial & HR records including payroll have been processed and stored electronically. Paper records prior to 2021 are retained securely, in a locked directors' office in accordance with statutory requirements.

VTS uses cloud-based storage via Microsoft Teams and SharePoint.

Original Company paper records are retained in a safe in the office.

Staff Access to Electronic Files & Information

This is managed on a strict 'need to' basis. In other words, all staff are only granted access to files and information necessary for them to fulfil their role within VTS. Access is managed at Director level. Further information can be found in our IT Policy & Handbook.

Retention period for information & documents

Will be managed in accordance with any relevant statutory, contractual or legal requirements if applicable. Where no such requirements exist, the senior leadership team will have the final say based on sensible business practice.

VTS will not retain files, information & documents any longer than necessary. When they are no longer required, they will be securely destroyed/removed from the electronic filing system.
